Avaya Conference Phone B109

Personal Conferencing Anywhere

The Conference Phone B109 is a personal speaker phone. It's compact and portable and fits easily inside your briefcase, wherever you're going. Despite its size, the Conference Phone B109 delivers crystal-clear sound thanks to our unique OmniSound® audio technology. It's ideal for a meeting with a couple of colleagues in one of your smaller conference rooms. Or in a hotel room while you're away from the office. If you're alone in the room, the Conference Phone B109 is a good alternative to a headset.

The Conference Phone B109 can be used with Avaya Equinox® and other conferencing applications on your mobile phone, tablet, or laptop. It connects easily to a PC via a USB port or to a tablet or smartphone via Bluetooth. Moreover, the Conference Phone B109 has support for ultra-fast Bluetooth pairing through NFC (near-field communication) and HD quality calls. With Bluetooth A2DP (advanced audio distribution profile) you can play your favorite music with superior audio performance when your meeting has finished. The clear and attractive LCD display screen lets you see at a glance which feature is enabled. This is also shown by the LEDs which shine downwards in different colors. The Conference Phone B109 has a headset port, and the built-in battery gives you the option of completely cordless use.
