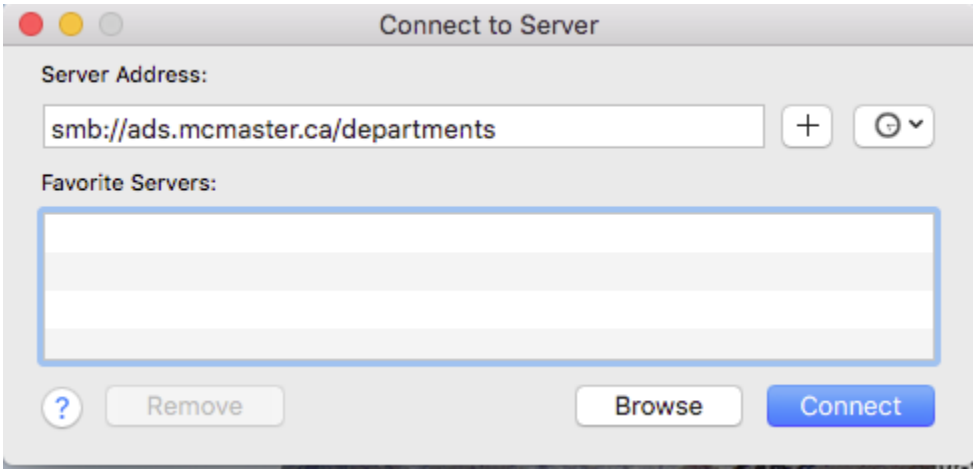
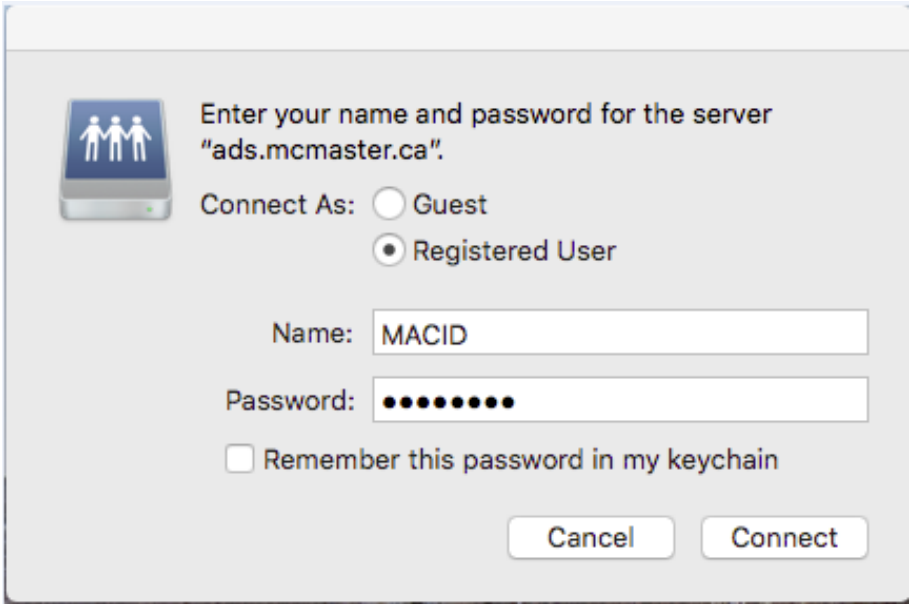
How to Map Shared File System Drive Shares on a MAC

1. In the Finder go to **GO** and select **Connect to Server.**
2. Type in **smb://ads.mcmaster.ca/departments**



3. Click **Connect**
4. Under **Name** enter your **MACID** and **password** and click **Connect**



5. You are now mapped to the Shared File System Drive
   Please Note: If you check off **Remember this password in my keychain** it will automatically remap you on restart
